

USER DATA RESTORATION

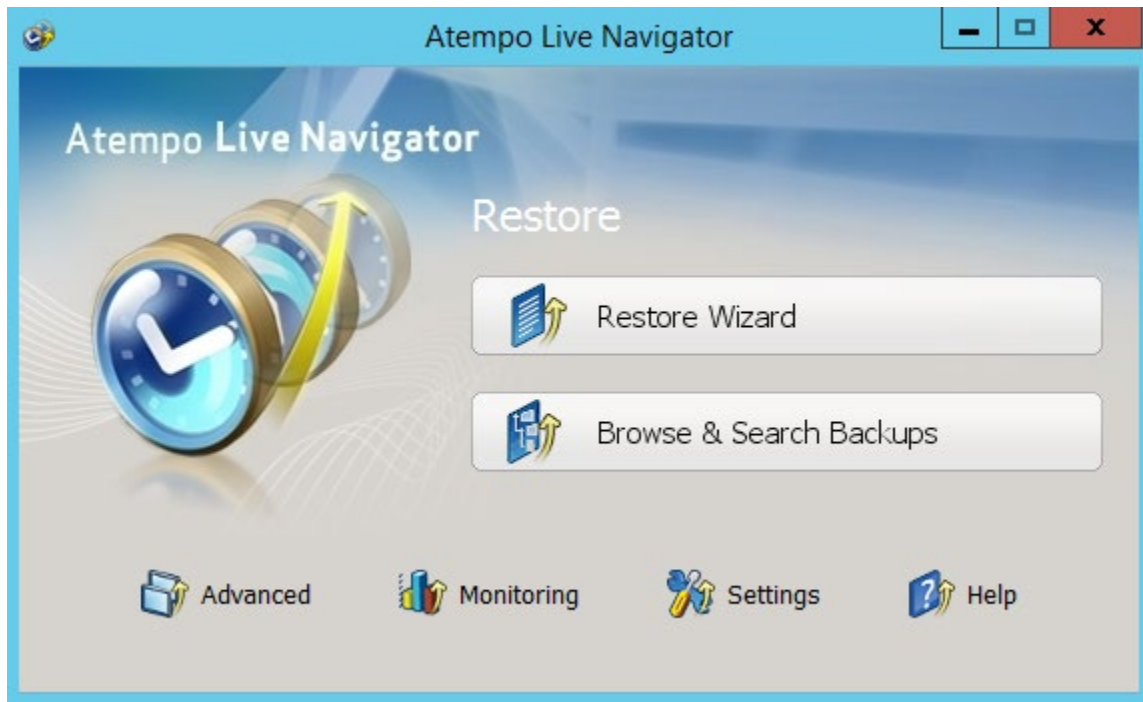

STEP 1:

Run the Atempo Lina Wizard as Administrator.

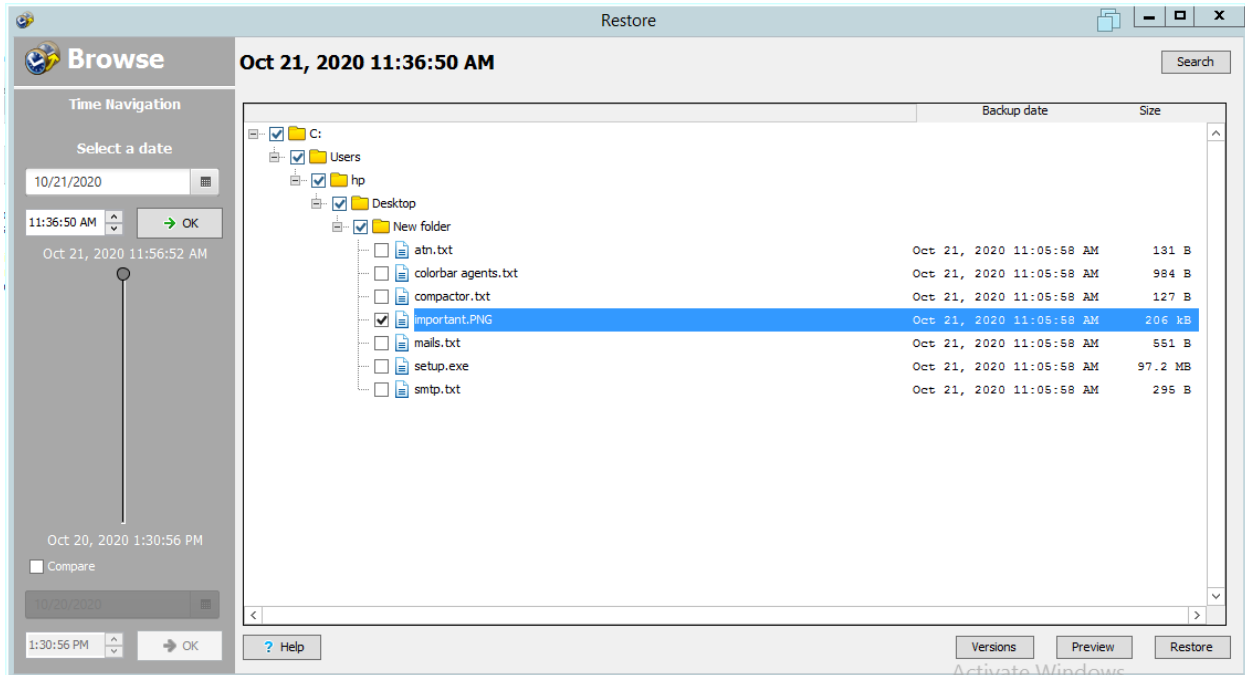

STEP 2:

Click on Browse and Search Backups.

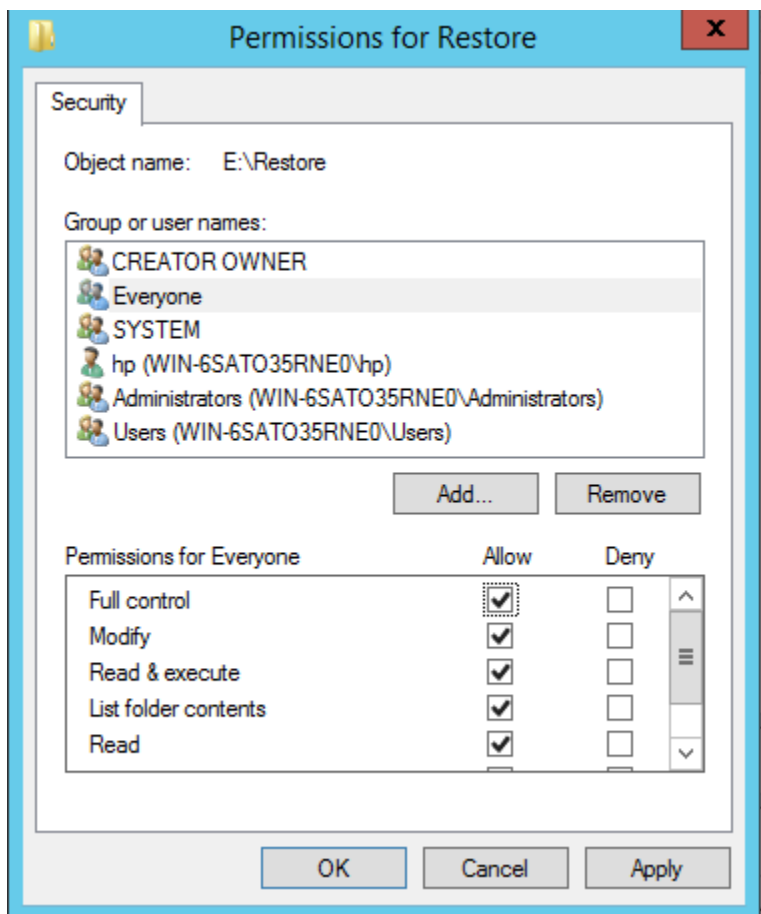

STEP 3:

Select the File and click on Restore.

STEP 4:

Create a folder and give Everyone rights to the folder.

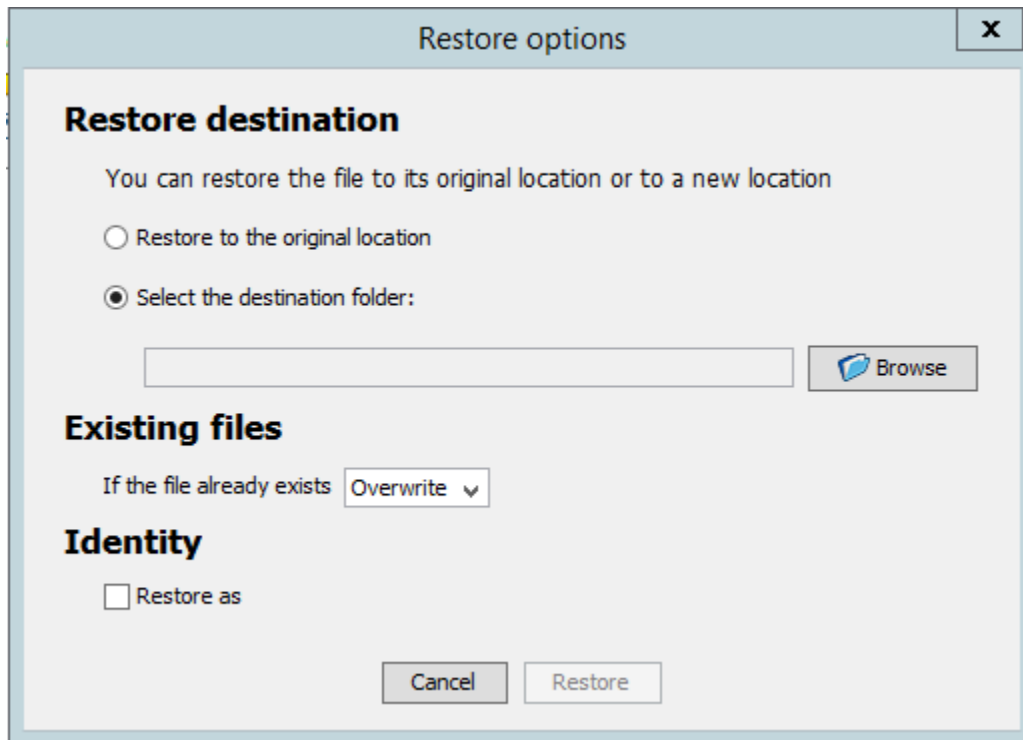

Note: Create folder other than C drive.

Also provide full control to Users, System and Click on Apply.

STEP 5:

Click on **Select the destination folder** and then the
Click on **Browse**.

The image shows a dialog box titled "Restore options" with a close button (X) in the top right corner. The dialog is divided into three sections:

- Restore destination:** This section contains the text "You can restore the file to its original location or to a new location". Below this text are two radio button options: "Restore to the original location" (which is unselected) and "Select the destination folder:" (which is selected). Under the selected option is a text input field and a "Browse" button with a folder icon.
- Existing files:** This section contains the text "If the file already exists" followed by a dropdown menu currently set to "Overwrite".
- Identity:** This section contains a checkbox labeled "Restore as", which is currently unchecked.

At the bottom of the dialog are two buttons: "Cancel" and "Restore".

STEP 6:

Select the path where above folder created for data restore.

STEP 7:

Click on Restore As and enter administrator credentials.

The image shows a screenshot of a software interface. At the top is a window titled "Restore options" with a close button (X). Below it is a section titled "Restore destination". A sub-dialog box titled "Restore as..." is open, featuring a close button (X) in its top right corner. This sub-dialog contains an "Identification" section with two input fields: "User:" and "Password:". Below the "Password:" field is a checkbox labeled "Show password" which is currently unchecked. At the bottom of the "Restore as..." dialog are "Cancel" and "OK" buttons. Below the sub-dialog, in the main "Restore options" window, there is a checked checkbox labeled "Restore as" and two buttons: "Cancel" and "Restore".

After entering credentials click on OK.

STEP 8:

Click on Restore.
